Animated conversations help students learn with visual stimulation that can be used as an ice breaker or a warm-up activity.

The vocabulary is recorded by native speakers to ensure the most authentic pronunciation. The text can be shown or hidden with just one click.

The 13-stage game allows kids to play while reviewing at the same time. It is the best assessment tool for students.

In the management platform, teachers are able to view their students' learning record which includes the times each unit is viewed and the total amount of time spent on the course and the game. Also available are a variety of supplementary materials ranging from tests to writing exercises, all printable for teachers' use.
